| Job Description | <p>Duration: 1 year (possible extension)</p> <p>Our client, a leader in their industry, is searching for a Sr. level IBM MQ Series WebSphere Application Server Administrator. Qualified candidates will have at least five years experience as a MQ Series Systems Engineer and at least two years experience in engineering computer systems. Experience working with Oracle 8i / 9i, Tivoli Policy Director, SUN Solaris, Web based portal Technologies (i.e. Broad Vision), Distributive computing and host computing environments will be considered a plus. This individual shall have a Master's Degree from an accredited university in Computer Science, Electrical Engineering, or a related discipline. A high number of years of WAS MQ Series specific experience will be equivalent to the Master's Degree.</p> <p>Applicants must be able to analyze and investigate operational discrepancies, develop workarounds, implement fixes, and provide software engineering support for the COTS (proprietary software) integration activities within multiple large-scale computing environments comprised of various technologies such as: IBM WebSphere Application Server, Oracle 8i / 9i, Tivoli Policy Director, SUN Solaris, IBM MQ Series, and Web based portal Technologies (i.e. Broad Vision). Candidates can expect interaction with other team members thus excellent communication skills are a must! If you are interested in an exciting project with a well-established company then you are encourage to apply immediately!</p> <p>Visit our website at http://www.teksystems.com</p> <p>Join TEKsystems, one of the leading IT consulting and services providers in the United States. As a result of our rapid growth and merger with our sister company, Maxim Group, we are constantly searching for talented technical professionals with all levels of information technology and communications skills. From the personal delivery of your weekly checks, to our dedication at finding you the next project, we take care of our people. TEKsystems knows that every professional has different needs, so we'll work together to determine a suitable benefits package. We offer our team members medical, dental, optical, 401k, provisions for vacation and holiday pay, and technical and professional training.</p> | | | |
